Justice (Grenfell Tower Typeface)

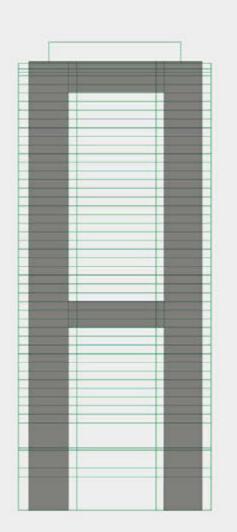

The Brief

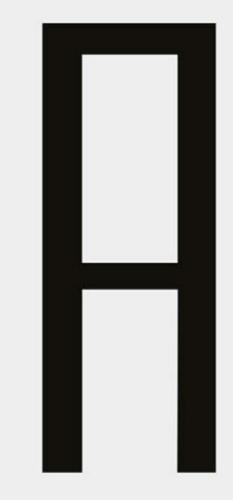

Use typography to communicate the story of a chosen community.

Justice

Justice consists of 26 characters, 9 numbers, and glyph set. Available in English, with Arabic and other language variants under development. We also saw the need to use the green adopted by the campaign groups as a primary colour.

Monospace Display Typeface

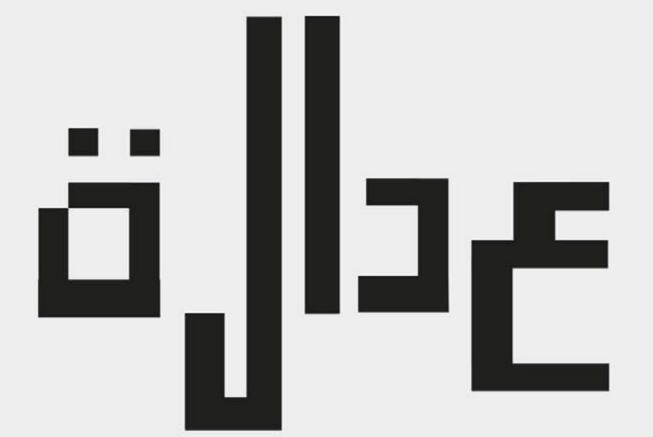

Basing the system on the architectural layout of the tower, the grid is made out of three columns of 24 levels like the tower itself. It creates a rigid structure to adhere to whilst giving each character unique traits, making it a raw and commanding display typeface.

Justice Arabic

Justice Arabic was developed by expanding the grid system to the four sides of the tower to accommodate the intricacy of the Arabic language.

Language Development

We saw a need to adapt the typeface to be as culturally inclusive and usable for the campaigners as possible. Upon visiting the memorial walls at Grenfell, we saw the large amount of messages written in Arabic. This led us to develop an Arabic version of the typeface. We also want to develop other language variants to be used by those affected.

SUPPORTING VOUR COMMUNITY

Since the appalling Grenfell Tower fire, we've been working on the ground, supporting households on a daily basis. And we're campaigning to make sure that a tragedy like this can never happen again.

happen again. The Grenfell Tower fire devastated a community, robbing people of their loved ones and homes. At Shelter, we're here to help in any way we can. Our team is offering advice and providing legal help to households as they try to navigate a complex housing system at the most traumatic of times. We're supporting people as they look at new homes, and handle the struggles of living in emergency accommodation.
